Objective

Software Engineer experienced in developing and maintaining modern web applications across frontend and backend systems. Skilled in building scalable features, integrating APIs, and working with data-driven applications. Focused on delivering reliable functionality, improving user experience, and contributing to continuous product development in collaborative environments.

Technical Skills

- **Frontend:** HTML5, CSS3, TailwindCSS, JavaScript, React.js, Next.js
- **Backend:** Node.js, Express.js, MongoDB, MySQL
- **Authentication & APIs:** JWT, OAuth, RESTful APIs
- **Tools & Deployment:** Git, GitHub, Postman, Vercel, Firebase

Education

TamilNadu Open University, Chennai

Jul 2019 – Jun 2022

Bachelor of Business Administration (BBA) - CGPA: 8.0

Experience

LoanDNA Pvt. Ltd. - Chennai, Tamilnadu

Jul 2025 – Present

Software Engineer

- Developing and maintaining web applications and platform features.
- Implementing secure authentication and role-based access control.
- Integrating frontend modules with backend services through REST APIs.
- Collaborating with cross-functional teams to build scalable and maintainable solutions.

PS Digitise - Trichy, Tamilnadu

Jan 2024 – Mar 2025

Front-End Developer

- Developed responsive websites and web applications.
- Integrated APIs to enable dynamic content and user interactions.
- Collaborated with designers to implement user-friendly interfaces.
- Optimized performance and maintained clean, structured code.

Xmedia Solution - Chennai, Tamilnadu

Dec 2022 – Jan 2024

UI Developer

- Converted design mockups into responsive web pages using modern web technologies.
- Ensured compatibility across multiple devices and browsers.
- Assisted in debugging issues and improving existing features.
- Participated in team discussions for task planning and development updates.

Projects

LoanDNA Platform | Next.js, React.js, Redux, Tailwind CSS, RESTful APIs

Live

- Developed and maintained frontend modules for a scalable loan management platform.
- Implemented secure authentication and role-based access control for different user roles.
- Integrated REST APIs to support data-driven workflows and platform functionality.

Mindful Beauty - E-Commerce Platform | React.js, Redux, Tailwind CSS, RESTful APIs

Live

- Built a responsive customer-facing e-commerce platform for product browsing and online shopping.
- Integrated APIs for product data, order management, and user sessions.
- Implemented responsive layouts and ensured cross-browser compatibility.

Mindful Beauty Admin Panel | React.js, Redux, Tailwind CSS, RESTful APIs

Live

- Developed an internal dashboard for managing products, orders, and customer data.
- Integrated API endpoints for data management, filtering, and reporting.
- Built reusable UI components to improve development efficiency and maintainability.
